Dear Ms. Tully,

This is in response to your March 28, 2013 Freedom of Information Act Request (FOIA) regarding the Department of Homeland Security Transportation Security Lab located at the FAA William J. Hughes Technical Center. I have been informed by FAA, the lead agency for the Superfund cleanup at the facility, that they have provided you with the information that you requested in the referenced FOIA. In addition, FAA maintains the Superfund administrative file contains all primary reports and correspondence. EPA files on the FAA Superfund site are incomplete and therefore it would be advantageous to reference their administrative files for the information you seek.

If you have any questions regarding the above, please do not hesitate to contact me at (212) 637-4335.

Sincerely yours,
